

Esempio progetto - GitLab

Interactive Systems Design

Laurea Magistrale in Informatica

Anno Accademico 2018-2019

Esempio progetto

The screenshot shows a web browser window with the title 'projectStub · GitLab - Mozilla Firefox'. The address bar displays 'https://gitlab.com/isd17-18/projectStub'. The GitLab navigation bar is visible at the top, including the GitLab logo, 'Projects', 'Groups', and 'More' dropdowns, along with a search bar and various utility icons. The main content area shows the project details for 'projectStub', which is an 'Esempio progetto' (Example project) with a 'Global' visibility level. Below the project name, there are tabs for 'Projects' and 'Subgroups'. The 'Projects' tab is active, showing a list of projects. Two projects are listed: 'SoftKeyboard' (Sample Soft Keyboard) and 'data' (Dati e documentazione del progetto). The 'SoftKeyboard' project is highlighted with a blue box containing the text 'Software realizzato/modificato (1 progetto differente per ciascun software)'. The 'data' project is highlighted with a blue box containing the text 'Documentazione e dati prodotti'. Both projects show their last update time: 'updated 22 minutes ago' for 'SoftKeyboard' and 'updated 24 minutes ago' for 'data'. A sidebar on the left contains navigation icons for home, repository, merge requests, issues, and settings.
